

Autumn Radiance Maple

Height:	30-60 Feet
Width:	40 Feet
Shape:	Rounded
Foliage:	It has green foliage with white undersides. The lobed leaves turn an outstanding red in the fall.
Flowers:	Autumn Radiance® Red Maple features showy clusters of red flowers along the branches in early spring before the leaves.
Fruit:	It produces red samaras in late spring.
Description:	The tree that lights up the landscape with vibrant and consistent red in fall; a great shade tree.
Fall Color:	Brilliant Red
Advantages:	As it matures, the lower branches of this tree can be strategically removed to create a high enough canopy to support unobstructed human traffic underneath. It grows at a medium rate, and under ideal conditions can be expected to live for 80 years or more.
Site & Culture:	This tree should only be grown in full sunlight. It is quite adaptable, preferring to grow in average to wet conditions, and will even tolerate some standing water. It is not particular as to soil type, but has a definite preference for acidic soils, and is subject to chlorosis (yellowing) of the foliage in alkaline soils.
