

Greenspire Linden

Height:	40-50 Feet
Width:	25-35 Feet
Shape:	Conical / Symmetrical
Foliage:	The small, heart-shaped, green leaves are dark green on top and a sophisticated gray-green underneath.
Flowers:	In early summer, clusters of fragrant yellow flowers grace its branches.
Fruit:	As summer progresses, you'll enjoy watching woody, pea-sized seeds form.
Description:	Greenspire™ linden is a magnificent shade tree with a strong, spire-like shape throughout its life and fragrant yellow flowers in early summer when few trees bloom. It is very tidy and low-maintenance, adaptable, and makes an excellent lawn or street specimen
Fall Color:	Yellow / Gold
Advantages:	High canopy typical clearances of 6 feet off of the ground, Very Adaptable, Strong branching, Symmetrical form, Highly tolerant to urban conditions
Site & Culture:	Normal, Clay, Dry
